

2015-2016 Season Changes and Announcements

IndependenceFirst recently sent a letter to its consumers announcing changes in their Sports and Recreation Program. SEWASP and IndependenceFirst have shared a mutually beneficial collaboration for almost 20 years, and we greatly appreciate the program coordination support provided by IndependenceFirst through those years.

Please watch your email and post mail in early October for our announcement of the 2015-2016 season, which will include an updated phone number and mailing address. We will continue to provide the same valuable service to youth and adults with disabilities. Currently, the best way to contact us is through our web contact form.

Although we are saddened to close the chapter with IndependenceFirst, we are excited to begin another

exhilarating season and a new chapter for the SEWASP family. SEWASP is committed to providing quality adaptive ski and snowboard lessons as we always have, and we look forward to serving our skiers and snowboarders now and in the future.
